## Summary of Progress this Report

We met with our advisor, Dr. Gaffar, to report our progress in learning about AI and our development frameworks. We discussed image classification and speech cognition. The team also met to assign tasks for future advisor meetings, design document assignments, and our lightning talk.

## Pending Issues

We are still behind on design document assignments so we plan to complete two of them by the end of this weekend. At our current pace, we should be caught up by the end of next week.

## Plans for Upcoming Reporting Period

We plan to research speech recognition AI models, complete more of the design document, and meet again with Dr. Gaffar. We will also begin preparing for our lightning talk.
