We worked on two design document sections (Project Plan and Design Context), met to discuss the Ethics and Professional Responsibility Assignment, assigned sections for our lightning talk, and practiced Keras speech recognition tutorials.

Pending Issues

We will be completing Project Plan and Design Context over the weekend and submitting them. Then we'll have two design document sections left. We also need to continue with Keras tutorials.

Plans for Upcoming Reporting Period

On Tuesday, we will be meeting with Dr. Gaffar to discuss our progress in researching speech recognition AI and bounce ideas off of him for our lightning talk. The team will work to complete the Proposed Design and Testing sections of the design document so that we can hopefully submit them by the end of next week. On Thursday, we will be giving our lightning talk so we will need to finalize our slides and practice presenting before then.
